Silicone Cover For Hook Magnet

Hook Magnet and Swing Hook Magnet has steel yoke to make absorbability stronger with a combination of magnetic force. However, this yoke tends to give scratch onto surface of furniture when removed. To avoid those scratches, Hook Magnet with Silicone Cover is developed. This Silicone Cover not only protect surface of furniture, but increase the absorbability to make the hook harder to slide. A variety of colors of Silicone Cover, such as black, red, blue, yellow, green and white are available.

Size	Color
52R	black, red, blue, yellow, green and white
25R	black, red, blue, yellow, green and white

Other colors are available by order

Protects surface of furniture, and makes harder to slide.

Easy to apply and hard to detach.
