

Magnetic Assemblies >> Pull-and-Push Magnetic Attractor

Magnetic Catcher

■ Component Part: Hard plastic body plus magnetic system. This catcher is a powerful auxiliary in search for iron/steel things, as it has a large contact surface. The catcher can attract iron/steel parts or things such as screws, screwdrivers, and any presswork for connection in workmanship move iron/steel things or separate iron/steel things from other materials.

■ Application: Aim the catcher at the iron/steel things to be caught, these things will attach themselves onto the magnetic surface. When separating these things, just put the catcher into a pull the manual handle up and these iron/steel things will fall into the tray.

■ Features: Large attraction surface area (150cm×100cm), light in weight, easy for application, appearance, application temperature is $\leq 80^{\circ}\text{C}$

■ Total Size: 240cm×100cm×210cm
